

AS FEATURED IN

We love the intricate mouldings.

EXPERT TIP
Rounded island tops offer a classy aesthetic and a more child-friendly environment.

A VISION OF GRANDEUR

"This is no ordinary white kitchen. A brand-new build, the kitchen was designed specifically for the room. Featuring a beautiful glass roof, luxurious finishes and a wide, open layout, the space oozes a stylish grandeur. Tradition and modernity blend harmoniously, with beautiful mouldings and lattice-style cupboards coexisting seamlessly with sleek, high-quality appliances. The detailed mouldings hint of a time long past and soft curves fill the room, from the island corners to the posts. The elegant marble benchtop and splashback, combined with the butler's sink and traditional tapware, add glamour to this space. The homeowners wanted to keep a room as refined as this separate from the mess of cooking, so tucked behind bi-fold pocket doors are the study and butler's pantry. The kitchen offers space for entertaining with an open-plan layout catering for guests and family to enjoy the home."
Designer Sydney Wide Kitchens Pty Ltd
